---

## Professional Summary

Results-driven Software Developer specializing in building scalable, high-performance applications with expertise in frontend, backend, and full-stack development. Skilled in JavaScript/TypeScript, React, Node.js, database design, and Web3 integrations. Adept at collaborating with cross-functional teams to deliver impactful digital products.

---

## Core Skills

- **Frontend:** React.js, Next.js, Redux, Context API, HTML/CSS, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, Microservices, MongoDB, PostgreSQL, MySQL
- **Full Stack:** API integration, authentication (JWT, OAuth2), CI/CD workflows, Git/GitHub
- **Blockchain & AI:** Web3 APIs, crypto payment gateways, LangChain ,n8n,make.com, smart contract listeners
- **Data Analysis:** SQL, Power BI, Excel, ETL pipelines
- **Other:** Agile/Scrum, Docker, Redis caching, system design principles

---

## Certifications

- [Google Project Management (Coursera)](#)
- [React Developer (Jad Joubran)](#)
- [Data Analysis & BI (Dataleum)](#)

---

## Experience

**Chainfren** – *Backend Engineer* (Jan 2025 – Present)

- Developed and maintained APIs/microservices for DeFi applications.
- Integrated blockchain wallets, crypto payment gateways, and smart contract event listeners.
- Optimized backend performance through caching (Redis) and asynchronous processing.
- Collaborated with frontend teams to deliver secure, scalable solutions.

**Grafiki Studios** – *Software Developer* (Aug 2022 – Dec 2024)

- Delivered full-stack solutions for branding, media, and e-commerce platforms.
- Designed responsive React/Next.js interfaces with optimized UI/UX.
- Built secure backend services with Node.js, Express.js, and MongoDB/PostgreSQL.
- Deployed applications via Docker, GitHub Actions, and cloud services.
- Integrated payment gateways and third-party APIs for enhanced platform capabilities.

**Henof Food Nig Ltd** – *Frontend Developer* (Jun 2019 – Jul 2022)

- Built and maintained responsive web interfaces with React.js, HTML/CSS, and JavaScript.
- Implemented state management with Redux/Context API for scalable applications.
- Collaborated with backend developers to integrate REST APIs and ensure seamless UX.
- Optimized performance through code refactoring and best practices in frontend architecture.

---

## Education

**B.Sc. Mathematics**, University of Lagos – 2017
**SSCE**, Sacred Heart College – 2012

---

## Interests

AI, Blockchain, Application Development ,Photography, Design, History, Music, Football, Tennis
